# Trinity Lutheran Preschool is about helping your child grow

The ages of 3 and 4 are an exciting time for your child. He or She is.....

...Learning about the world: This is a time when your child loves to explore and ask questions. "Why" is a favorite question at this age, as your child begins to show an interest in how things work. Trinity Lutheran Preschool can help your child grow by introducing your child to games, books and activities that help children explore the world safely.

...Learning right from wrong: Your child is now able to understand simple rules and is learning to tell good from bad. Trinity Lutheran Preschool can help re-enforce these important principles by teaching your child truths from the Bible and providing games where children learn simple rules like taking turns.

...Learning about others: 3 and 4 year olds begin to want to play with other children. This is an important time for your child to learn the social skills needed for a healthy and happy life. Trinity Lutheran Preschool can help by providing an enjoyable atmosphere where children learn to share and play together in group games and activities.

...Learning about his/her own abilities: At three and four large motor skills are beginning to be more developed. Running, skipping, and jumping are favorite activities. At the same time, small motor skills are also beginning to show themselves and your child is beginning to enjoy painting, drawing, and practicing with glue or scissors. Trinity Lutheran Preschool can help by giving your child practice at these important activities by providing active play and creative crafts for your child to enjoy.

...Learning about Jesus. Most importantly, Trinity Lutheran Preschool wants to help introduce your child to the love of their Savior. Through puppets and colorful teaching aids your child will learn who Jesus is and what He did for us.

## PARENT INVOLVEMENT

We believe that you should have an active role in your child's preschool learning. **Trinity Lutheran Preschool** goes the extra distance in letting you know how your child is doing in preschool. Along with regular newsletters and parent/teacher meetings, we also take a few minutes when you come to pick up your child to let you know what the children did that day. We invite parents to join in our many special activities and field trips so that you can be an important and active part of your child's preschool experience.
